OVERVIEW

The THOR: Hammer SE head worn microphones are high performance mics that feature a Danish omnidirectional condenser capsule. Carefully tuned for clear, articulation of both male and female voices, these microphones are perfect for houses of worship, presenters, theater and broadcast. The Hammer SE series has both shorter (SE-9) or longer (SE-11) versions. The mic system features a lightweight, flexible boom, an optional wrap-around headband, and a detachable, easy-to-replace cable.
